

Founded in the early 1990's, DAC Technologies Group International, Inc. is in the business of manufacturing and marketing consumer products for the wholesale, retail and OEM gun manufacturing markets. The Company has placed emphasis on firearm safety, gun cleaning kits and security items.

Beginning with a single product, the Company's product line has evolved and expanded tremendously over the years. The Company's initial emphasis was on personal security, developing a line of various personal and automotive electronic security devices. In 1996, the Company entered the firearm safety market; a very successful product line that now includes a wide variety of gun locks, trigger locks and cable locks. In 2000, the Company added a line of electronic, digital safes designed to store and protect firearms.

In 2003, the Company introduced the first of its "GunMaster" gun cleaning kits. This line of solid brass kits now includes over 35 items, ranging from universal kits designed to fit virtually any firearm, to caliber specific rod and brush sets and accessories.

The Company is continually evaluating its product line, adding new products to complement its existing line, particularly in the sporting goods and hunting markets.

Through its relationships with its Chinese manufacturers, the Company is able to provide high quality, low cost products, providing the consumer with extreme value. Our products arrive assembled, packaged and ready for delivery to our customers at our warehouse/office facility in Little Rock, Arkansas.

The success and growth of the Company allowed it to go public in June 2000. The Company's stock is traded under the ticker symbol "DAAT".

The Company's customer base includes mass merchants such as Wal-Mart, Kmart and Walgreens, sporting goods retailers and distributors such as Dick's, Big Five, Cabela's, Acusport, Jerry's, RSR and others. DAC also provides gunlocks to OEM gun manufacturers such as Glock, Sig Arms, Savage, Marlin, Taurus, as well as others. DAC's products are also sold through catalog companies such as Cabela's, LL Bean and others.
